PYAE KHANT

Backend Engineer | Junior DevOps Engineer

Mandalay, Myanmar | hello@pyaekhant.dev | github.com/pyae-khant | linkedin.com/in/pyae-khant

PROFILE

Software Engineering student focused on scalable backend services, Linux server administration, containerization, CI/CD fundamentals, and infrastructure engineering. Interested in building dependable APIs and improving the complete delivery path from source control to production servers.

TECHNICAL SKILLS

Backend	Node.js, NestJS, Express.js, REST APIs, Authentication & Authorization, Prisma ORM, Redis, BullMQ
Databases	PostgreSQL, MySQL, MongoDB
DevOps	Linux Administration, Docker, Podman, Git & GitHub, Nginx, CI/CD Basics, VPS Deployment
Frontend	Next.js, React, TypeScript, Tailwind CSS, shadcn/ui

SELECTED PROJECTS

AI Interview Platform Next.js, NestJS, PostgreSQL, Redis, BullMQ, Docker

AI-assisted interview evaluation platform with role-based administration, queued scoring jobs, structured feedback, and candidate analytics.

Server Monitoring Dashboard Next.js, WebSocket, Docker, Linux

Real-time dashboard for CPU, memory, disk, uptime, and lightweight Linux host telemetry.

Container Deployment Tool Node.js, Docker, Nginx

Simple VPS deployment workflow for containerized applications, environment configuration, and reverse-proxy templates.

TRAINING & CERTIFICATES

Linux Administration | Docker | Podman | MERN Stack | Next.js | Web Security

ENGINEERING INTERESTS

Backend architecture, cloud-native applications, infrastructure automation, message queues, caching, observability, secure deployment, and CI/CD.

Starter resume included with the portfolio project. Replace contact details, education, dates, credentials, and project links with verified information before public use.
